HPN Modifications of BMW GS models

Here we want to give you the answers to some standard questions that come up frequently.

1. The models that can be modified in the HPN system are the following: BMW R80 G/S '80-'87, BMW R80ST, BMW R65GS, BMW R80GS/R100GS '88-'95, BMW R80GS Basic.
2. Please take care that the motorcycles still fulfill your state laws after the modifications, HPN cannot be responsible for not meeting your state requirements, but we will do our best to assist you.
3. These are the possibilities to get a HPN modified bike:
 - Buy a brand new HPN, built to your specs.
 - Get your complete bike modified in our workshop.
 - Get your frame kit done at HPN and build up the bike yourself.
4. The HPN TÜV data sheets cover a wide variety of modifications.
5. Due to product liability requirements it is a must, to use the especially for HPN produced front forks and shock absorbers. If you have further questions don't hesitate to ask us, give us a call.
Tel.: +49 (0) 8571/5300 (between 6 p.m. and 8 p.m.), ask for Mr. Klaus Pepperl
Fax: +49 (0) 8571/1081
e-mail: info@hpn.de
6. We can reinforce the main- and subframe of all under 1 mentioned models with the standard suspension front and rear.
7. All interested customers can take a costfree testride after making an appointment. In addition, Mr. Pepperl will give you an individual consultation concerning your special needs.
